Skullcandy®

Fun, Young and Irreverent…

Born From Innovation…

Inspired by Creativity, Music, Art, Active Lifestyle and Youth Culture…

WE ARE SKULLCANDY.

We hold strong to our roots as the original lifestyle and performance audio brand with a strong heritage in music, action sports, and youth culture. Just like our consumers, we are also evolving every day to be better than yesterday and live life with passion. While our irreverence and differentiated point of view continue stronger than ever, we are also improving in all aspects of our business.

Our product innovation and quality have never been stronger and will lead the next evolution of Skullcandy. We have moved away from our historical outsourced product development model because we did not feel our quality met the expectations of our consumers. We now have added more than thirty engineers, designers, developers and quality positions throughout the world. We have also added an Advanced Concepts and Engineering team where we are cooking up the newest innovations and ideas for the future. Our consumers are already seeing the difference with innovations such as our patented immersion Crusher technology. Crusher provides bass you can feel (not just hear) and puts the consumer in the front row of the concert and inside of the video game or movie. You have to feel it to believe it. Other technologies that are improving the way our consumers experience their music include our patented Fix and Off-Axis technologies.

Our brand's authenticity comes from the skate parks, mountains and ocean swell. However, what makes our brand unique is our ability to combine the many pieces of youth culture to create a full youth collective. We have the ability to bring together NBA all-stars such as Kevin Durant, Derrick Rose, Kyrie Irving and James Harden with skate team members like Eric Koston and Theotis Beasley. We bring these together in a way that is Skullcandy—fun, young and irreverent with a twist of gritty, creative and active.

We are a passionate team of innovators and risk takers. We are always on offense to excite and surprise our consumers and retailers. We believe deeply in helping our consumers amplify fun, bettering our communities and helping people live with passion. Every new day we look to be better than yesterday. We look forward to partnering with you on the journey.

Cheers,

Hoby Darling

Skullcandy Snow, wearing Icon 3

Our Story

Rick Alden was riding a chairlift in Park City, a snowboard beneath his feet and a problem in his hands. He wanted to listen to his music but needed to take a call. His gear made it tough to switch his headphones from one device to the other. Rick decided he could solve this problem. He knew he could do it better.

He didn't stop there. He saw a bigger issue: headphones weren't being designed to meet his lifestyle passions. They were boring and fragile pieces of technology completely out of tune with his culture. Electronics and action sports--the two didn't mix. Not yet. From this unholy alliance, Skullcandy was born.

Skullcandy is the original lifestyle audio brand. But being first isn't easy. In 2003, skate shops didn't sell audio equipment and a lot of them weren't sure they wanted to. Rick persisted. One by one he convinced them this was an idea whose time had come. And he was right.

The Skullcandy brand was embraced by action sports, and Skullcandy returned the love. This brand was earned, not manufactured. The passion and dedication showed, and in less than a decade, Skullcandy grew from a garage-based startup into a publicly traded organization with offices around the world.

Today, we design the best headphones in terms of style, quality, and performance at every price point we compete in. But don't be mistaken. This is not a pat on the back for a job well done – it's a kick in the ass to take Skullcandy to the next level. Our story is just getting started.

Icons

UNIVERSAL

Supreme Sound
Experience music the way it was meant to be heard

Mic1+ Remote
Control your device with our one button mic/remote

Mic3+ Remote
Control your iOS device our three button mic/remote

Travel Case
Store your assets in style

Travel Bag
Store your assets in style with our satin travel bag

Skullcandy GAMING

Gaming has come a long way since the days of 8-bit consoles. Powerful network-connected gaming consoles that spit out high-def graphics and bring massive multiplayer worlds to life have taken gaming to the next level. No longer are gamers limited to competing to be the best on the block in a simple side scrolling fighting game--they can now try to be the best in the world in fast action first-person shooters.

Skullcandy has come out with a line of gaming headsets that not only improve the overall gaming experience but help you hone your gaming skills and give you the competitive edge as well. With products ranging from a wired solution that functions as both a universal gaming headset and a mobile audio headset, to wireless gear that boasts either stereo or fully spatial Dolby 7.1 surround sound technology, Skullcandy Gaming has all types of gamers covered. With aggressive industrial designs and colors, as well as Supreme Sound tuned for an improved immersive experience, the gaming headset industry will never be the same.

NEVER RETREAT
NEVER SURRENDER

Skullcandy PLYR 1

7.1 SURROUND SOUND WIRELESS HEADSET
